Start in F (optional – can do whole song in G if desired)

When the weather's pushing forty degrees
 There's nothing better than just lying in the shade of the trees
 I know the place to go where we can stay cool
 I'll meet you down at the pool

CH: Down at the pool – such beautiful weather
 Down at the pool – all my friends together
 Down at the pool – wish it could last forever
 Down at the pool

There's nothing like that feeling when you first dive in
 As that cold clear water wraps around your skin
 It's better than work, it's better than school
 I'll meet you down at the pool

CH: Down at the pool – with all my best friends
 Down at the pool – diving into the deep end
 Down at the pool – I'll be there the whole weekend
 Down at the pool

Change Key to G
